

Revised Notice of Public Hearing

March 23, 2015

Ref. 2015-H-02
Revision 1

The Canadian Nuclear Safety Commission (CNSC) announces changes to the public hearing dates and the location for Part 2 of the two-part hearing on the application from Bruce Power Inc. to renew, for a period of five years, its power reactor operating licence for the Bruce Nuclear Generating Stations A and B located in Kincardine, Ontario.

The public hearing will now take place in the evening of April 13, 2015, in addition to the previously scheduled dates of April 14, 15 and 16, 2015, in light of the high number of interventions. The location for Part 2 has also been changed to ensure adequate room for members of the public to observe the hearing.

Hearing Part 1 was held in Ottawa, Ontario, on February 5, 2015.

Hearing Part 2: April 13, 14, 15 and 16, 2015
Place: Davidson Centre, 601 Durham Street, Kincardine, Ontario
Time: As set by the agenda, to be published prior to the hearing date

The public hearing will be webcast live and then archived for 90 days on the CNSC website, nuclearsafety.gc.ca.

Bruce Power's submission and CNSC staff's recommendations that were considered at Part 1 of the hearing are now available. These documents are not downloadable. To obtain them, a request must be made to the Secretariat at the address below or directly from the website. Agendas, hearing transcripts and information on the hearing process are available on the CNSC website at nuclearsafety.gc.ca.
